

An individual has 8 dimensions of data/information – Personal (Self), Family, Health, Finance, Property, Leisure, Profession and Learning. Typically a person keeps these information pieces on a variety of media – paper, files, spreadsheets, etc.

Vaakhyam covers the complete gamut of Personal data, with a suite of Mobile Apps for the Individual. Vaakhyam is positioned as an Individual's Digital Assistant, providing his/her personal data & information at anytime.

Vaakhyam Apps are Private, local, secure & complete. The data rests in the Smartphone only, at all times. Apps can be used without SIM, WiFi or Internet. The data is not kept at any website. This is a major benefit to individuals, from the privacy angle.

However, Access to Vaakhyam Help requires internet. The Apps run on android only, for now.

MyCash

MyCash is a easy-to-use Android Mobile App to manage the receipts and payments of an individual. Record cash or bank receipts and payments as and when it happens. Useful for individuals to track their Receipts/Payments, the fast and smart way.
